

# The Jamaica Pond Project "Olmsted To Honor Christine"

## Frederick Law Olmsted

*Passages in the Life of an Unpractical Man*

### One-Man Show by Gerry Wright

Join us on Sunday, December 19th, in this tribute presentation entitled "Olmsted To Honor Christine" celebrating twenty-one years of stewardship and work of Christine Cooper.

Christine Cooper has been the Project Director for the Jamaica Pond Project for 21 years. She will be moving on to to new endeavors in early 2005.

Christine's work at the Jamaica Pond has been extraordinary: being both the spiritual force and practical presence. She has been responsible for directing the Sailing School, the Open Classroom, operation of the boat house concessions, information specialist, coordinating the public row boating and sailing programs, maintenance of the bathrooms, parklands clean-up project coordinator, motivator for major restoration programs; collaboration with the Boston Police, Boston Municipal Police, State Police for the safety of citizens in the parklands, partnerships with the staff of the Boston Parks and Recreation Departments, partnerships with teachers of the Boston School Department, a friend of hundreds and greeter of thousands who visit Jamaica Pond. And by her nature and on-going study, a passionate voice and example of carrying forward the legacy of Frederick Law Olmsted.

## Sunday, December 19th, 4 PM

**Play followed by a Reception**
